TIME TO SPREAD SOME SWEET SWEET $\square$

We hope you enjoy your free printable Valentine's \& Galentine's day card. Here's a couple things to help you get started:

- The card, once folded, measures $5 \times 7$ inches but the design measures $10 \times 7$ inches.
- I recommend printing on a letter-sized paper (8.5 x 11 inches) and cutting out your card(s). Crop marks are included on the design.
- If you do take the design to a professional printer, I would recommend a 80lb stock with a matte finish.
- After you're done, we want to see your card(s)! TAG US @DEERYARDDESIGNS
- Cards are for personal use only
- Not for redistribution or resale
